DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-
(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 30-40 are rejected under 35 U.S.C. § 102(e) as being anticipated by Bodet et al, U.S. Patent No. 5,430,439 (hereinafter Bodet).

Regarding claim 30, Bodet discloses a method for displaying messages on a display of a personal communication device, comprising the steps of:

storing in a memory of the personal communication device a contact database having a plurality of entries, each entry comprised of at least one telephone number and one name corresponding to at least one telephone number;

Art Unit: 2614

receiving data in a wireless signal, said received data including at least one a telephone number or name; comparing said received data with the contact database, to determine if the telephone number or name received matches a telephone number or name in any of the contact database entries; displaying contact database data on the display of the personal communication device that corresponds to the received data; and displaying on the display of the personal communication device a message prompting the user to enter additional data corresponding to the received data, if the received data in the received data does not match any telephone number or name in the contact database (see Figure 2 and column 4).

Regarding claim 31, see Figure 2 and column 4.

Regarding claim 32, see Figure 2 and column 4.

Regarding claim 33, Bodet discloses a portable communication device comprising:

a receiver for receiving a radio frequency signal; a microprocessor for extracting a message from the radio frequency signal, the message including a telephone number of the sending party;

Art Unit: 2614

a memory for storing a personal name directory including a plurality of entries, each entry comprising at least one telephone number and at least one name associated with said telephone number;

a comparator for searching the personal name directory to determine a match between the telephone number in the received message and a telephone number in any of the entries of the personal name directory; and

a display for displaying data from the personal name directory entry corresponding to the telephone number in the received message, such that the display displays a message prompting a user to enter additional data for the telephone number received in the message if the telephone number received in the message does not match a telephone number in the personal name directory (see Figure 2 and column 4).

Regarding claim 34, see Figure 2 and column 4.

Regarding claim 35, see Figure 1 and column 4.

Regarding claim 36, see Figure 2 and column 4.

Regarding claim 37, see Figure 1 and column 4.

Regarding claim 38, Bodet discloses a selective call receiver including:

Art Unit: 2614

a receiver for receiving a radio frequency signal;

a microprocessor for extracting a message from the radio frequency signal, the message including a telephone number of the party who sent the message;

a display for displaying the message; the improvement comprising:

a memory for storing a personal name directory including a plurality of entries, each entry comprising at least one telephone number and at least one message associated with the at least one telephone number;

a unit for searching the personal name directory to determine a match between the telephone number in the received message and a telephone number in any of the entries of the personal name directory for displaying on the display a message of the personal name directory entry corresponding to the telephone number in the received message or displaying a default message indicating that the telephone number in the received message is not in the personal name directory entries and for displaying a message prompting a user to create an entry for the telephone number received in the paging message (see Figure 2 and column 4).

Regarding claim 39, see Figure 1 and column 4.

Regarding claim 40, see Figure 2 and column 4.

Response to Arguments

3. Applicant's arguments have been considered but are deemed to be moot in view of the new grounds of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
